### **Wicked Cool for Kids**

Wicked Cool for Kids

Founded in 2006

Over 3000 brains stimulated, and counting.

Wicked Cool for Kids offers complete hands-on enrichment programs that extend learning beyond school. We base our programs on three fundamental principles - learning, fun, and safety.

Every member of our program is background-checked and trained in both curriculum and safety procedures. Our curriculum is structured around an experiential environment where we engage kids in challenging activities. Our staff are encouraged to be kid-centered rather than curriculum-centered so that kids are always stimulated and on task at their own pace.

Please visit our website for more information: [www.wickedcoolforkids.com](http://www.wickedcoolforkids.com).
